

Press release

Flowfox and cinvio enter partnership

Flowfox and cinvio officially announce to enter a partnership to integrate cinvio's digital wallet into the Flowfox platform.

With an integration of cinvio's digital wallet ocean carriers, importers and freight forwarders are enabled to have a smooth payment flow in real time within the Flowfox all-in-one import automation platform. Also charges for drop-off and container reuse can be easily collected through cinvio.

Flowfox CEO Patrick Pehmöller stated:

"With Luc De Clerck and cinvio we have found a valuable partner, who shares the same vision of easy and effortless operations in logistics. cinvio optimally complements our platform."

About cinvio

cinvio is a payment platform and digital wallet solution for B2B logistics. It monetises business opportunities and gives companies' e-commerce activities a boost while facilitating trade between all stakeholders.

About Flowfox

Flowfox has developed an all-in-one import platform to simplify the business for ocean carriers, forwarders and importers.

The Flowfox platform covers the following processes amongst others:

- Container Release
- Container Reuse
- Drop-off Change
- Pickup Change
- C/H Instructions
